THE RAINBOW

1933

PUBLISHED BY THE STUDENTS
of the
JUNIOR COLLEGE OF AUGUSTA
and
ACADEMY OF RICHMOND COUNTY
Volume VII
AUGUSTA, GEORGIA

We, the members of the RAINBOW staff, in looking for some member of our faculty to whom we should dedicate the 1933 RAINBOW, came upon that teacher whose outstanding loyalty and faithfulness have placed him in the heart of every member of the student body. He has served us patiently and has shown a personal interest in all those students with whom he has come in contact; therefore, we take great pleasure at this time in dedicating this book to our beloved Professor of Chemistry, *Chester A. Scruggs*.

Starting out with very hard opposition and a green team, the Junior College was not able to cope with its more experienced opponents during the first three games of the season. Nevertheless, the local collegians did absorb a great deal of experience in football, and showed the fans that the Junior College had a team that knew how to "take it." After the first three games the locals began to tackle teams more evenly matched and with much better results.

The first football squad of the Junior College began its career in September with a preliminary training of two weeks before school opened. The outlook was not a cheerful one because of the size and lack of experience of the majority of the boys, but they went to work with determined hearts to do their best against overwhelming odds. The schedule that faced them was not one to cause overconfidence as all the opposing teams were heavier and more experienced.

J. C. A. suffered its first defeat at the hands of a powerful team from Brewton-Parker. The next contest was with Carlisle at Bamberg. This time we had a chance to win, but a rally during the last half was not enough to bring home the coveted victory. Following this defeat we met Douglas A. & M., only to be defeated again. In this game Coach Simpson's boys did score a touchdown, however, and their spirits were revived somewhat. The next game was a night game with Belmont Abbey. In this game the Junior College put up a good scrap, only to be defeated by a 6 to 0 score, due to a streak of hard luck during the last few seconds of the game. The Augustan's hardest fight was put up in the game with the Citadel Freshmen. This was the last game of the season and the boys had more experience and fight, giving every ounce of it in order to win, only to lose by the heart-breaking margin of one point. Some rather brilliant plays and strategy were displayed by our boys during this game. They were improving and gaining the needed confidence.

Although J. C. A. went through its season without winning a game and scoring only twelve points, that was not so bad for a team new to the game and handicapped by a lack of experience and teamwork. Here's to a more successful season in 1933.

A. R. C. FOOTBALL, 1932

Looking back over the 1932 football season, we do not find the Academy's record of such brilliance as it has been in the past. This was due to the division of the Junior College and Academy athletics, which weakened both elevens.

Coach Sherlock began the season with green and inexperienced material, most of them being out for football for the first time. If counting the number of games won and lost, the season, perhaps, was not a success—three wins and one tie to six lost. But among the few successful games, one stands out above the rest: The Musketeers met and tied their arch rival, the Riverside Cadets, from Gainesville, Ga.

After three weeks of hard training under a blazing sun, Coaches Sherlock and Royston presented a strong offensive team to open the season with Warrenton Hi. The Musketeers won by a margin of 19 to 6. In the next game the Richmond Musketeers continued their victory with a 20-0 win over Washington High School. The next six games were defeats, but the ninth showed a complete reversal of form, the Cadets submerging the Americus High School under a 25-0 score.

THE RIVERSIDE GAME

Saturday, November 22, brought to a close the Musketeers' schedule. To win this game would make the season a success as far as the supporters cared, but before the game the Cadets were given hardly an outside chance to win. The win on the preceding Saturday was the best thing that could have happened to the Cadets after six losses. The Academy took the field on a clear November day, a more determined bunch of football players than ever. Though the score was tied 7-7, it does not really tell the story.

In the first half, the light inexperienced Musketeer squad held their heavier and more experienced opponents 0-0. In the second half, the Cadets were determined to have this game; but Riverside scored seven points in the third quarter. The Academy, still determined to win the game, also scored seven points in the last period, making the score a tie. The whistle blew with Riverside on our one-foot line.

It was a great game for the Academy and drew praise from all who saw it.

Coach Bolton started the season with only ten candidates for the team. Out of this group of boys he had to pick a team. Though handicapped by the lack of material, he was able to turn out a very good team.

Junior College made a very favorable showing in the Inter-City League that was sponsored by the Y. M. C. A. The team made an invasion into Newport, Tennessee to the Southeastern Junior College Tournament. Here the team was defeated in the first round by Biltmore Junior College. The Junior College did not win the tournament, but the squad should be commended for its splendid efforts.

A. R. C. BASKETBALL, 1933

With Coach Langston Bolton leading them the A. R. C. squad enjoyed a fairly successful basketball season.

The team played eighteen games, winning eleven and losing seven. With Leipold, Bailie, Bearden, Nelson and Bryson leading the attacks, the Musketeers piled up 602 points to their opponents' 458.

About forty girls answered to the first call for basketball practice, which resulted from a petition drawn up by the Junior College Girls who were interested in Basketball.

The girls showed such interest in the playing that they are assured of a regular team next season. No games could be played with other schools this year because most of them had closed their seasons. There were, however, games between the different teams formed among themselves and a game with Tubman in which the Junior College girls were beaten by a narrow margin.

TRACK SQUAD

G. L. "Fritz" Fogel	440 yd. dash

More interest was taken in track this year than in former times. This was probably due to the fact that there was no baseball team.

Coach Langston Bolton had only two letter men from last season to build his team around. Consequently he has had a hard job getting the boys ready and instructing them in the different events.

There will be only two dual meets before the district meet, which takes place at Monroe, Georgia on Friday, April 21st, 1933.

As this goes to press the team has played only two matches. One of these was with Yale University and the other was with Rollins College. Both of these matches were won by the locals.

At present there is a tournament in progress, but no statement can be made about its outcome. There was a great deal of interest manifested in golf this year. About thirty-two reported for the elimination matches and the number remaining is gradually dwindling down.

The following games have been scheduled and will be played later on in the season:

TENNIS

Tennis at Richmond Academy was definitely on the boom during the 1933 season, as was made evident by the fact that approximately forty-five students were taking part in the sport. Keener interest was taken in the Academy and Junior College tournament than at any time in recent years. The championship was not determined until the last game had been played.

New courts recently built by Mr. Mitchell have stimulated interest, too.

HE STAFF of the 1933 RAINBOW takes this opportunity to thank, for the graduating classes of 1933, all who have co-operated in the particularly difficult task of making this year's RAINBOW even a moderate success: Mr. Skinner, who has cheerfully given us of chapel time, and even of class time, for our pictures; the members of the Faculty Committee, Mr. Mitchell, Mr. Royston and Mr. Owens, who have pored long over our manuscript, encouraged our ventures in financing, and worked with us without hope of reward; the students who have had their pictures made promptly and paid their assessments ungrudgingly; and our advertisers who have stayed with us in spite of hard business years. And the Staff takes just a little credit to itself for hours of writing, classifying and assembling material, and for more weary hours of tramping the pavements and halls in search of ads and subscriptions.
